Template Tags/comments popup link

Description

Displays a link to the comments popup window if [comments_popup_script\(\)](#) is used, otherwise it displays a normal link to comments. This tag must be within [The Loop](#), or a comment loop.

Usage

```
<?php comments_popup_link('zero', 'one', 'more',  
                           'CSSclass', 'none'); ?>
```

Examples

Text Response for Number of Comments

Displays the comments popup link, using "No comments yet" for no comments, "1 comment so far" for one, "% comments so far (is that a lot?)" for more than one (% replaced by # of comments), and "Comments are off for this post" if commenting is disabled. Additionally, 'comments-link' is a custom [CSS](#) class for the link.

```
<p><?php comments_popup_link('No comments yet', '1 comment so far',  
'% comments so far (is that a lot?)', 'comments-link', 'Comments are  
off for this post'); ?></p>
```

Parameters

zero

(*string*) Text to display when there are no comments. Defaults to 'No Comments'.

one

(*string*) Text to display when there is one comment. Defaults to '1 Comment'.

more

(*string*) Text to display when there are more than one comments. '%' is replaced by the number of comments, so '% so far' is displayed as "5 so far" when there are five comments. Defaults to '% Comments'.

CSSclass

(*string*) CSS (stylesheet) class for the link. This has no default value.

none

(*string*) Text to display when comments are disabled. Defaults to 'Comments Off'.
