Template Tags/edit post link

Description

Displays a link to edit the current post, if a user is logged in and allowed to edit the post. It must be within [The Loop](#).

Usage

```
<?php edit_post_link('text', 'before', 'after'); ?>
```

Examples

Default Usage

Displays edit post link using defaults.

```
<?php edit_post_link(); ?>
```

Display Edit in Paragraph Tag

Displays edit post link, with link text "edit", in a paragraph (<p>) tag.

```
<?php edit_post_link('edit', '<p>', '</p>'); ?>
```

Parameters

text

(*string*) The link text. Defaults to 'Edit This'.

before

(*string*) Text to put before the link text. There is no default.

after

(*string*) Text to put after the link text. There is no default.
