Version Date

9 August 2005

Template Tags/single cat title

Description

Displays or returns the category title for the current page.

Usage

```
<?php single_cat_title('prefix', 'display'); ?>
```

Example

Displays the text "**Currently browsing** " followed by the category title.

```
<p><?php single_cat_title('Currently browsing '); ?>.</p>
```

Currently browsing [WordPress](#).

Parameters

prefix

(*string*) Text to output before the category title. Defaults to ' ' (no text).

display

(*boolean*) Display the category's title (`TRUE`) or return it for use in PHP (`FALSE`). Defaults to `TRUE`.
