Version Date

9 August 2005

Template Tags/single post title

Description

Displays or returns the title of the post when on a single post page ([permalink](#) page). This tag can be useful for displaying post titles outside [The Loop](#).

Usage

```
<?php single_post_title('prefix', display); ?>
```

Example

```
<h2><?php single_post_title('Current post: '); ?></h2>
```

Current post: Single Post Title

Parameters

prefix

(*string*) Text to place before the title. Defaults to ' '.

display

(*boolean*) Should the title be displayed (`TRUE`) or returned for use in PHP (`FALSE`). Defaults to `TRUE`.
