Template Tags/trackback url

Description

Displays or returns the trackback [URL](#) for the current post. This tag must be within [The Loop](#).

Usage

```
<?php trackback_url(display); ?>
```

Example

```
<p>Trackback URL for this post: <?php trackback_url(); ?></p>
```

Parameters

display

(*boolean*) Display the URL (`TRUE`), or to return it for use in PHP (`FALSE`). Defaults to `TRUE`.
