# Template Tags/wp list authors

## Description

Displays a list of the blog's authors, and optionally displays each author's post count and [RSS](#) feed link. This tag behaves the like [list\\_authors](#), the only difference being that arguments are passed to the function in query string format.

## Usage

```
<?php wp_list_authors('arguments'); ?>
```

## Examples

### Default Usage

Displays the list of authors using default settings.

```
<ul>
<?php wp_list_authors(); ?>
</ul>
```

### Authors Full Names and Number of Posts

Displays the site's authors and the number of posts, does not exclude the admin, shows the full name of the authors, and hides authors with no posts. It does not display the RSS feed or image.

```
<?php wp_list_authors('optioncount=1&show_fullname=1'); ?>
```

```
Harriett Smith (42)
Sally Smith (29)
Andrew Anderson (48)
```

## Parameters

optioncount

(*boolean*) Display number of posts by each author. Options are:

- 1 (true)

- 0 (false - this is the default)

exclude\_admin

(*boolean*) Exclude the administrator account from authors list. Options are:

- 1 (true - this is the default)
- 0 (false)

show\_fullname

(*boolean*) Display the full (first and last) name of the authors. Options are:

- 1 (true)
- 0 (false - this is the default)

hide\_empty

(*boolean*) Do not display authors with 0 posts. Options are:

- 1 (true - this is the default)
- 0 (false)

feed

(*string*) Text to display for a link to each author's RSS feed. Default is no text, and no feed displayed.

feed\_image

(*string*) Path/filename for a graphic. This acts as a link to each author's RSS feed, and overrides the **feed** parameter.
